

Low Voltage PIR Motion Detector

A DC switching, low voltage PIR motion detector suitable for controlling lighting, pumps, fans or similar, up to the current consumption of 5A.

This unit is designed for internal fitment only and is not suitable for exterior use.

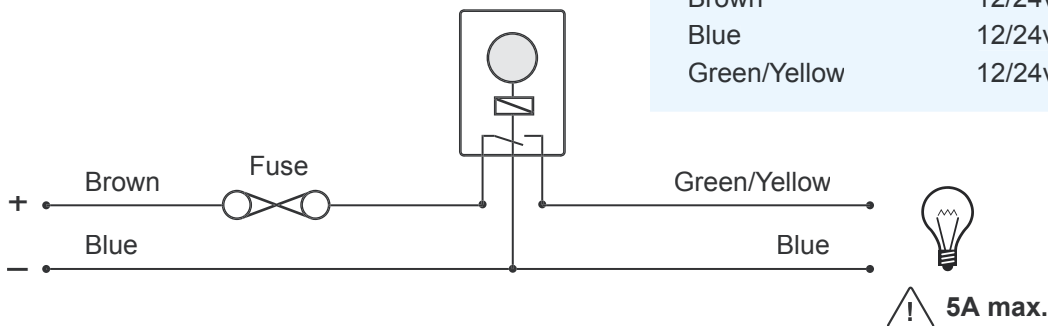

Product Specification

Dimensions	80mm(L) x 56mm(W) x 25mm(H)
Voltage	12/24v DC
Max. Load Current	5A
Detection Range	5m
Detection Angle	100°
Time Delay	5 minutes

Wiring Information

Brown	12/24v Positive supply
Blue	12/24v Negative supply
Green/Yellow	12/24v Switched supply
